Alphabin (TestDino)	SEO Executive	Jul 2025 – Apr 2026
Tata Teleservices	Direct Sales Executive	Apr 2025 – Jul 2025

Educational Qualification

Degree	College / Institute / University	Result / Year
MBA (Marketing)	LJ University, Ahmedabad	2023 – 2025
BBA (Marketing & Sales)	VNSGU / Prof. V.B. Shah Institute, Surat	2021 – 2023
HSC (Commerce)	Mauni International School	2019 – 2020

Projects

Title	**Ask4Lead – WhatsApp AI CRM**
Technologies	Google Search Console, Semrush, Screaming Frog, Claude, PowerShell, WordPress
My Role	SEO Specialist
Specification	• Conducted a complete SEO audit to identify technical, on-page, indexing, schema, and website performance issues. • Used Google Search Console, Semrush, and Screaming Frog to analyze website performance, indexing, keywords, and technical issues. • Processed 71 Semrush keyword exports and created a keyword master sheet based on search intent, funnel stage, page type, and priority. • Improved monthly organic clicks from 23 to 416 and impressions from 186 to 42,690 while improving average position from approximately 31 to 8.

Title	**Alvix Insurance Group – US Trucking Insurance**
Technologies	Semrush, Screaming Frog, Google Search Console, Claude
My Role	SEO Specialist

Specification	• Conducted an SEO audit to identify the main reasons for ranking and traffic problems across 201 website pages. • Used Semrush, Screaming Frog, and Google Search Console to analyze keywords, technical issues, competitors, and existing content. • Analyzed keyword clusters and combined similar search terms into fewer pages to avoid creating thin and duplicate content. • Rewrote selected pages to improve headings, readability, content structure, and search intent while keeping the existing information and links.

Title	**Shree Hari Group – Industrial Conglomerate**
Technologies	Claude, WordPress, Semrush, Excel
My Role	SEO Content Strategist
Specification	• Planned the website structure for a group with 15+ entities by separating company pages and service pages. • Conducted keyword research and mapped keywords to individual pages to avoid keyword overlap between related pages. • Created approximately 76,000 words of website content across 24 page files based on the approved content structure. • Reviewed the website structure and identified template issues that could create duplicate content across multiple pages.

Title	**Nexus SEO OS – AI SEO Workflow System**
Technologies	Claude, Claude Code, Claude MCP, Semrush MCP, PowerShell
My Role	SEO Workflow Designer
Specification	• Created an AI-assisted SEO workflow system to support daily SEO research, content planning, technical audits, and competitor analysis. • Used Claude and Semrush MCP to analyze keywords, competitors, search results, and website data. • Created separate workflows for keyword research, content creation, technical SEO audits, AEO/GEO, and content optimization. • Added quality checks to verify facts, links, originality, and SEO requirements before using AI-generated content.

Title	**TestDino / Alphabin – Playwright Testing SaaS**
Technologies	Google Search Console, Semrush, WordPress, Claude
My Role	SEO Executive
Specification	• Conducted SEO activities for TestDino, a Playwright testing and reporting platform, from the pre-launch stage. • Conducted keyword research and created content based on high-intent Playwright and software testing search queries. • Published 127 BOFU-focused blog posts and optimized titles and meta descriptions for existing pages. • Improved monthly organic clicks from 118 to 9,162 and generated more than 2.6 million organic impressions without paid advertising.

Title	**GVM Technologies – AI & AEO/GEO SEO**
Technologies	Google Search Console, Semrush, Claude, WordPress, Site Kit

My Role	SEO Specialist
Specification	• Conducted SEO and content work for GVM Technologies and its AI-related website. • Researched topics related to AI, software, digital marketing, and search engine optimization. • Created content focused on AI search, Google AI Overviews, answer engines, and brand visibility. • Implemented AI-readable website files such as llms.txt and supported AI crawler access across multiple websites.

Title	**Multi-Site SEO Audit & Keyword Research**
Technologies	Semrush, Screaming Frog, Google Search Console, PowerShell, Excel
My Role	SEO Analyst
Specification	• Conducted competitor research by analyzing website structures, sitemaps, organic rankings, and keyword performance. • Used Semrush and competitor data to identify keyword opportunities and understand the search terms used by competing websites. • Processed a 38,500-row keyword dataset for Zunzun Solutions and analyzed keyword intent and content performance. • Prepared technical SEO recommendations including hreflang, noindex, sitemap, and website structure improvements for different client websites.

Strengths

- SEO Planning and Research
- Technical SEO Analysis
- Keyword-to-Page Mapping
- Content Strategy
- AI Workflow Development
